

## **LDDS System Test Plan**

**( June 6, 2026 )**

### **I. Scheme Overview**

To support the LDDS system server version upgrade and to cooperate with relevant business testing , our company will organize a full-network test of the LDDS system in conjunction with upstream related businesses on June 6 , 2026 (Saturday) from 9:00 to 12:00 .

### **II. Participating Units**

1. Shanghai Stock Exchange Information Network Co., Ltd.
2. Level-2 directly connected information vendors and securities firms .

### **III. Test Content**

The LDDS system production environment sends Level-2 market data (auction, bond , and composite ), Level-1 market data (auction, bond , and composite ), options market data, fixed income market data , and Hong Kong Stock Connect market data .

This test requires all units to verify the reception and processing of Level-2, Level-1, options , fixed income, and Hong Kong Stock Connect market data in the LDDS system .

### **IV. Test Feedback Content**

1. Static file reception and processing are normal ( cpxx , f

ny series files );

2. Level-2 market data reception and processing status;
3. Level-1 market data reception and processing status;
4. Status of receiving and processing option market data ( if authorized ) ;
5. Status of receiving and processing fixed-income market data ( if authorized ) ;
6. Status of receiving and processing Hong Kong Stock Connect market data ( if authorized ) ;
7. The system has recovered normally.

## V. Test Schedule

## VI. Test Data

In this test, the LDDS system production environment used the data from the end-of-day processing of all securities in the Shanghai Stock Exchange on June 5, 2026 (Friday) as the starting data for the test.

## VII. Test Requirements

1. All participating information providers must ensure the protection of their production system environment before testing and restore the environment after testing. Test data must not be released to the public.

2. During the testing process, all participating information providers should record the test phenomena and results in detail and check their accuracy. If any abnormalities are found, please report

them promptly.

3. After the test is completed, each participating information provider should submit test feedback in a timely manner.
