VI. Test Data

Data in this test is based on the actual continuous test results in the parallel test environment of the LDDS system.

VII. Test Requirements

1. During the testing process, all participating information vendors should record the test phenomena and results in detail and check their accuracy. If any abnormalities are found, please report

them promptly.

2. All participating units must ensure the isolation between the parallel testing environment and the production environment to prevent test data from affecting production.

3. After the test is completed, each participating unit should carefully fill out and submit feedback.

4. Participating units must submit test feedback before 12:00 on August 28 to: <https://form.idata.com.hk/single/wEwiuiUg>
