

Shenzhen Stock Exchange Trading and Settlement System on July 27, 2024

Full network testing solution

A. Testing purposes

The Shenzhen Stock Exchange (hereinafter referred to as SZSE) has issued the "Technical Preparation Notice on Expanding the Securities Code Range for Fixed Income Business" on May 10, 2024. To ensure the smooth development of related businesses, the Shenzhen Stock Exchange and the Shenzhen Branch of China Securities Depository and Clearing Co., Ltd. (hereinafter referred to as China Clearing Shenzhen Branch) are scheduled to organize a full-network test on July 27, 2024. The test will mainly simulate the daily trading, non-trading and other business processing processes of Shenzhen securities (with a focus on fixed income products) and Hong Kong Stock Connect (hereinafter referred to as Hong Kong Stock Connect) securities under the Shenzhen-Hong Kong Stock Connect, such as entrustment declaration, transaction returns, market information reception, share and fund clearing and delivery, to test the correctness of the technical systems of all market participants.

After the test is completed, the technical system related to expanding the securities code range for fixed income business will be launched.

B. Test units

1. Shenzhen Stock Exchange
2. Hong Kong Exchanges and Clearing Limited
3. China Securities Depository and Clearing Corporation Shenzhen Branch
4. Shenzhen Securities Communications Co., Ltd.
5. member unit
6. Fund Management Company
7. Bond trading participants
8. Market Service Provider
9. Clearing Participants
10. Other related units

C. Test content

The Shenzhen Stock Exchange's trading system and settlement system simulated the trading and settlement on T-day (July 27, 2024), and the Hong Kong Stock Connect securities simulated half-day trading and settlement on T-day.

(一) T-day test content

Market Participant Technical Systems:

Simulate the entrustment declaration of daily trading and non-trading business of Shenzhen Stock Exchange securities (including spot, options and other varieties) and Hong Kong Stock Connect securities , and receive transaction returns and real-time market information. Carry out entrustment declaration, market information query, transaction inquiry and data download through the trading terminal.

Simulate the share and fund clearing and delivery business processing of Shenzhen Stock Exchange securities (including spot, options and other products) and Hong Kong Stock Connect securities.

Expand the test content of fixed income business securities code range:

1. Enable the code range of 500000–519999 for corporate asset-backed securities, the code range of 520000–523999 for privately issued corporate bonds, the code range of 524000–529999 for publicly issued corporate bonds, and the code range of 560000–599999 for local government bonds.

2. Expand the code range for securities related to bond spot transactions, bond putbacks, bond putback resale, general pledged repurchase, pledged agreement repurchase, pledged tripartite repurchase, bond lending, credit protection contracts, agreed repurchases, stock pledged repurchases, specific bond transfers and other businesses including entrustment declaration, transaction returns,

market information reception and display, and stock and fund settlement and delivery.

3. Dividend payment, redemption, cross-market transfer of custody and other businesses of related securities.

D. Test schedule

The test time is from 8:30 to 14:00 on July 27, 2024 (Saturday).

The specific arrangements for the Shenzhen Stock Exchange's securities trading and settlement business test are detailed in the table below:

T-day test matters (simulated T-day July 27, 2024)		
time	Main test items	Key test contents of participating units

3	After 13:30	China Securities Depository and Clearing Corporation Limited Shenzhen Branch sends the Hong Kong Stock Connect settlement data for T-day	

E. Test data preparation

1. The T-day test uses the closing prices of all

securities in the Shenzhen Stock Exchange on July 26, 2024 (Friday) and the stock data after the market close as the starting data for transaction settlement.

2. The trading gateway, trading unit, binding relationship between trading unit and trading gateway, custody unit, settlement account, securities account, derivative contract account, market maker related information, ETF PD broker list, dealer code, trading entity code, and trader code used in the T-day test are all consistent with the production system on July 29, 2024 (Monday).

3. The PCF/IOPV files used for T-day testing of all ETFs will be consistent with the trading production system on July 26, 2024 (Friday). All fund managers do not need to upload PCF/IOPV files for testing.

4. Testing the parameters of newly listed corporate asset-backed securities

means of transaction	Negotiation transaction, click transaction, inquiry transaction, bidding transaction
Securities Category Code	7
Securities Class Name	Corporate bonds
Investor Suitability Management Classification	Professional institutional investors
Specific bond transfer start date	July 27, 2024

12. T-day test securities position arrangement

China Securities Depository and Clearing Corporation Shenzhen Branch registered 1,000,000 new test securities for the test securities accounts 0199900000, 0199900001, 0809900000 and 0809900001 in each valid A-share custody unit .

13. T-day test fund account balance setting

China Securities Depository and Clearing Corporation Shenzhen Branch will uniformly revise the balance of spot settlement reserve accounts and derivative margin accounts of all settlement participating institutions to RMB 10 billion on July 27, 2024. The balance of Hong Kong Stock Connect settlement reserve accounts will not be adjusted. If adjustments are required, please call China Securities

Depository and Clearing Corporation Shenzhen Branch to adjust the account balance. The contact number is: 0755-88666429.

F. Precautions

1. This test includes the trading system, settlement system, and D-COM system (excluding fund transfer business).

2. Each participating unit is requested to develop a detailed test plan and operation process based on the actual situation of its own technical system. Before testing, back up the online system and data environment, and then prepare the relevant data for the test on July 27, 2024. After the test is completed, audit the changes of the online system and restore the data environment to ensure the correct operation of the production system on the next trading day (July 29, 2024).

3. to the production environment after 23:45 on July 27, 2024 (Saturday) .

4. User management related operations such as password modification and user addition performed through the trading terminal during the test period are only valid during the test period and only apply to the test on July 27, 2024.

5. The data in this test is only simulated test data and has nothing to do with actual business. It cannot be used as the basis for any transaction, non-transaction, account

or other business in the production environment.

G. Testing requirements

1. All member units, fund management companies, bond trading participants, settlement participating institutions and related units must participate in the test. Those who cannot participate in the test for some reason must fill out the feedback form (see the attachment of the test plan) to explain the reason and notify the Shenzhen Stock Exchange.

2. During the test, each participating unit is requested to record the test phenomena and results in detail and check their correctness. If any abnormal phenomenon is found, please report it in time.

3. After the test is completed, each participating unit shall submit a test feedback form (see attachment) before 14:00 on July 27, 2024. Specifically, you can fill in the feedback form through the "Friendly Links-Online Survey Form" column at the bottom of the homepage of the "Member Business Zone" of the Shenzhen Stock Exchange (the content of the report can be updated) or fill in the feedback form through the Internet address <https://survey.szse.cn/v/tech> (the content of the report cannot be updated, and the last

submission will prevail if multiple submissions are submitted).
