

## **LDDS system test plan on production platform**

**(January 4, 2025)**

### **1. Project Overview**

Our company now plans to organize a LDDS system test on production platforms (ALC and TKO) from 9:00 to 12:00 on Jan 4, 2025 (Saturday). All Level-2 clients are recommended to participate in this test.

### **2. Participating Units**

1. SSE InfoNet Ltd.
2. China Investment Information Services Ltd (CIIS)
2. All Level-2 Information Vendors

### **3. Test content**

Level-2 market data (auction, bonds, and after-hours trading of the Science and Technology Innovation Board), Level-1 market data (auction, bonds, and after-hours trading of the Science and Technology Innovation Board), fixed income market data, and options market data are sent through the LDDS system production environment.

#### **(一) LDDS system bond quotation server upgrade**

All participating units are requested to pay special attention to the reception and processing of the bond Level -2 market data in the LDDS

system .

## (二) Cooperate with upstream to upgrade and pass the test

Reception, processing, and verification of Level-2 market data ,  
Level-1 market data, and fixed income market data.

### 4. Test Feedback Content

1. The reception and processing of pre-disk static files are normal (including cpxx, f jy, etc. );
2. Level-2 market data reception and processing;
3. Level-1 market data reception and processing;
4. Fixed income market data reception and processing ( if authorized ) ;
5. The system recovers normally.

## 6. Test Data

In this test, the production environment of the LDDS system is based on the data after the end-of-day processing of all securities in the Shanghai Stock Exchange on January 3, 2025 (Friday) as the starting data of the test.

## 7. Test requirements

1. Each participating information provider must do a good job of protecting the production system environment before testing, and do a good job of restoring the environment after testing. Please note that the

test data cannot be released to the public.

2. During the test, all participating information providers are requested to record the test phenomena and results in detail and check their correctness. If any abnormal phenomenon is found, it should be reported in time.

3. After the test is completed, all participating information businesses must submit test feedback carefully and in a timely manner .
