## 6. Test data

In this test, the production environment of the LDDS system is based on the data after the end-of-day processing of all securities in the Shanghai Stock Exchange on January 24, 2025 (Friday) as the starting data of the test.

## 7. Test requirements

1. Each participating information provider must protect the production system environment before testing, and restore the environment after testing. Please note that the test data cannot be released to the public.
2. During the test, all participating information vendors are requested to record the test phenomena and results in detail and check their correctness. If any abnormal phenomenon is found, it should be

reported in time.

3. After the test is completed, all participating information businesses must submit test feedback carefully and in a timely manner.
