

LDDS System Test Plan

1. Test plan overview

In support of advancing the VDE version upgrade for LDDS system users, our company has scheduled to open the LDDS system production environment and conduct data replay testing on March 22, 2025 (Saturday) from 9:00 to 16:00. Level-2 users may access the environment for testing based on their own circumstances.

2. Participating Units

All Level-2 Information Vendors

3. Test content

This test is expected to replay the production environment data from February 27 (Thursday). The market data includes static files, Level-2 market data (auction, bonds, and after-hours), Level-1 market data (auction, bonds, and after-hours), and options market data.

There are no specific testing requirements for this test; the environment is merely open for downstream users to access and verify.

4. Test Feedback Content

No feedback is required.

5. Test schedule

The test will be held on March 22, 2025, from 9:00 to 16:00.

6. Test requirements

1. All units are requested to ensure the protection of the production environment before testing.
2. All users must ensure that test data is not disclosed externally, and that the environment is restored after testing.
