## V. Test Data

In this test, the LDDS system production environment and the Shanghai Stock Exchange Cloud full-scale environment used the data from the end-of-day processing of all securities in the Shanghai Stock Exchange on March 20, 2026 (Friday) as the starting data for the test.

## VI. Test Requirements

1. All participating information providers must ensure the protection of their production system environment before testing and restore the environment after testing. Test data must not be released to the public.

2. During the testing process, all participating information providers should record the test phenomena and results in detail and check their accuracy. If any abnormalities are found, please report them promptly.

3. After the test is completed, each participating information provider should submit test feedback in a timely manner.
